

# PRIP®

*Pre-impregnated papers*

## NEW!

We can now offer additional production capacities and perspectives: in addition to the already existing capacity of our paper machine PM 18 in our mill in Neustadt, we now also have the new paper machine PM 14 located in our mill in Günzach.

## SERVICE

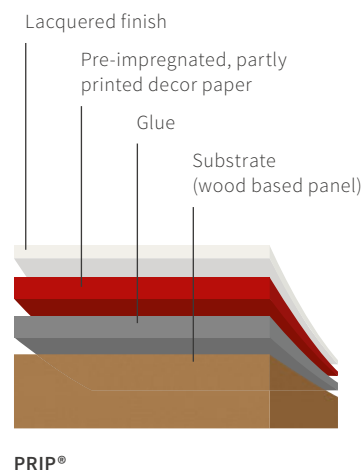

We offer a full range of services thanks to our special team of experts: CS (Customer Service) – ATM (Area Technical Manager) – ASM (Area Sales Manager) and R&D PRIP® experts.

## PROPERTIES

We have brought an pre-impregnated paper to the market: PRIP®. It is free from formaldehyde\*, has high plybond strength and good adhesion during different lamination processes. It also has excellent printability and allows impermeable surfaces to be produced with small quantities of varnish.

\* Gas analysis method ISO 12460-3 (2015)
